Jerusalem

Summative Assessment

Why do over half the people on Earth cherish the same space (in and near the Temple Mount/Haram al-Sharif) in Jerusalem?

Consider all we've learned about Jerusalem, its sacred sites, and the three Abrahamic religions. Create the script for a TED Talk in which you respond to the essential question. You'll need to start with something to create audience interest. (Example: Did you know that Jerusalem is the most fought over piece of land in human history?)

Refer to any of the materials we've used for this unit.

Include slides with visuals, but your actual information should be in the script, not on the slides.
